

# THE HD WAVE WHITE-LABELED FOR OEM AND NETWORK OWNERS!

You've broadcasted in standard definition, now it's time to switch to High Definition with the newly released HD Wave v2! Eyepartner, Inc. released its new version of The HD Wave Broadcaster, a real-time H.264 live broadcast encoding software solution. This solution is now available to be white-labeled as standalone software for any OEM or as part of a complete custom network.

Built on patent-pending technology, The HD Wave delivers stunning High Definition broadcasts at the lowest bitrates possible. Broadcast in 720p @ only 1.0Mbps or 1080p @ only 2.5Mbps! This gives you the flexibility to offer HD Broadcasting to all of your content producers such as IPTV providers, sport networks, and faith based broadcasting organizations.

Using an off-the-shelf quad core content producers are able to broadcast in stunning HD. At just \$299 per download it's the most affordable white-label HD solution ever offered. Take advantage of easy residual income by offering a fully white-labeled version of The HD Wave on your devices or network today. We'll even make it available for download in a custom storefront so you can resell it at a markup of your choosing.

## OEM BENEFITS:

Earn a licensing fee for each conversion from the free trial account that can be pre-installed on your hardware. Additional licensing fees awarded if the user elects to use our turnkey broadcasting platform, TikiLIVE. For a free demo, contact us today at 305-289-4557!

## NETWORK OWNER BENEFITS:

The HD Wave is versatile. It will broadcast in any format at any bitrate so you can optimize the encoding settings to broadcast your content. The HD Wave is also the perfect solution if you broadcast from multiple locations and want to keep production costs down. All you need in each location is an off the shelf quad core PC and a capture device, meaning you can get started for less than \$1,000 per location!

## HD WAVE BENEFITS OVERVIEW:

- Fully white-labeled to your brand
- Custom skins available with volume orders
- Affordable HD broadcasting - just \$299/download
- Under \$1,000 per location for required equipment
- Residual income from demo account conversions
- Only HD Broadcaster on market built on video driver technology
- Low usage of PC processor/resources
